

Save Qobuz

**We want Qobuz to survive, to remain intact
Qobuz is unique and irreplaceable to this day**

**Musicians, music and culture professionals,
music lovers and passionate audiophiles, we love Qobuz**

**We support Qobuz, will you?
The music service for culture, liberty and independence!**

Qobuz is a music streaming and download service that is unique to the world. At Qobuz, artists and music are placed at the heart of everything in order to provide an optimum service for music lovers and audiophiles.

Since 2008, the Qobuz team have created an online music platform that accompanies artists and music lovers every day. A platform that helps us artists in our work and allows us everyday to open our ears and listen, to independently discover new musical treasures, and rediscover musical heritage. Above all, Qobuz is an independent music service that goes well beyond the borders of what might be considered 'mainstream', and covers all musical styles.

Qobuz was the first to lead the battle against the MP3, against the degradation of sound quality with music on the Internet. Because when you love music, you should be able to hear to the real thing - without the good work of artists and producers being massacred by sound compression.

Above all, Qobuz is an online music service that loves music and loves artists. A service that accompanies us in our lives, and that highlights our work passionately. This passion is truly unique among today's music services and we must not let it disappear. As artists, the promotion of our creations through Qobuz' extensive editorial work is utterly essential.

Qobuz is a French and European company that puts technology at the service of cultural and musical diversity. In this way, Qobuz really is a a music platform like no other.

Please help us to safeguard the virtues of sound quality and music culture by supporting Qobuz.
